Dorado™

### Product Description

Dorado is your answer to portability in RFID reading and data collection. About the size of a small mobile phone, it is extremely simple to use and is small enough to carry around all day. Just use the included carrying case on your belt or carry it in your pocket!

You can easily connect and download all of your collected data files from Dorado directly into your application via the computer's USB port. Optional WiFi and Bluetooth interface with corresponding Android and iOS app is also available. RFID can be exported into XML and transmitted through E-mail or File Transfer Protocol (FTP) with the phone apps.
